

COZUMEL

DISCOVER

The islands of the Caribbean have a new rising star – and it's closer than you think: **Cozumel, just 12 miles off the eastern coastline of Mexico's Yucatan Peninsula.**

Home to the largest coral reef in North America, the second largest in the world, **Cozumel is considered one of the best diving destinations on the planet.**

The New "It" Destination

Once thought of as a daytrip from Cancún or a short stopover on a Caribbean cruise, the tranquil island of Cozumel has come into its own as the perfect destination for a relaxing, sun-soaked tropical escape. This unique oasis, renowned for its stunning natural beauty, world-class diving, ancient history, and quiet unrushed lifestyle, is an amazing place to "unplug" and unwind.

Rev Up Your Romance

Stroll hand in hand on a secluded beach, spend an idyllic day on Passion Island, enjoy a golf two-some on a Jack Nicklaus course, or share a candlelit dinner under the stars – when it comes to romance, Cozumel offers the perfect setting for an intimate escape.

Family Fun

Crystal clear water and small gentle waves make Cozumel's West Coast ideal for families looking for a beach-centric getaway. Spend a few days relaxing on the sand, then when you're ready for a little more adventure, head to the Punta Sur Eco Park. Situated within the Cozumel Reefs National Marine Park, Punta Sur not only offers amazing diving and snorkeling, but a lighthouse to climb, a Mayan shrine to explore, wetlands that attract migratory birds, and even crocodiles.

Don't Miss

On **November 25**, watch as some of the world's top athletes compete in a qualifying race for the 2012 Ironman World Championship.

From December 6-9, join divers from around the world at the Cozumel Scuba Fest, a tribute to Jacques Cousteau.
